Please note that the colours pictured are a guide only and it is recommended that the actual samples or displays are seen.

We also have available take home small sample pieces for colour selection.

## PAVERSTONE TEXTURES

## PAVERSTONE ACCESSORIES

- Paverstone are high quality dense, durable wet cast concrete pavers
  - Matching bullnose are available
- Paversstone are safe around salt water pools, though sealing with a quality penetrating sealer is recommended
  - 400 x 400 x 40mm size are safe for residential driveways (installed using the correct building practices)
- Apart from our listed basic colour range other colours can be made to order. Blends of colours are also possible
  - Paverstone in colour can occur with the natural ingredients used. It's best to order products at the same time.
- For ease of cleaning and added protection sealing is recommended. Best results are obtained after cleaning with an efflorescence remover prior to sealing. Always trial the sealer before application to determine suitability
